

## CARBON FOOTPRINT CERTIFICATE

(January - December 2025)

### PRO LOGIS

*By choosing LPR, you participate to the development of Circular economy and to the building of a more collaborative and sustainable supply chain. LPR works since several years on mitigating its impact on environment, in particular by monitoring closely the greenhouse gases emissions resulting from our activity. You can find below the carbon footprint related to our operations to serve your company needs all along the year.*

**37 513**

Pallets delivered along the year

**36**

Tons of CO<sub>2</sub>-equivalent emitted by LPR and its suppliers

**17**

Tons of CO<sub>2</sub>-equivalent saved in comparison with pallet-exchange management systems

March 2026  
Toulouse, France

These figures are based on a calculation tool developed by LPR with the support of EY. The method of calculation is in conformance with the GHG protocol international standards and takes into account the full life cycle of our red pallets (scopes 1 to 3).
